

Print Collateral

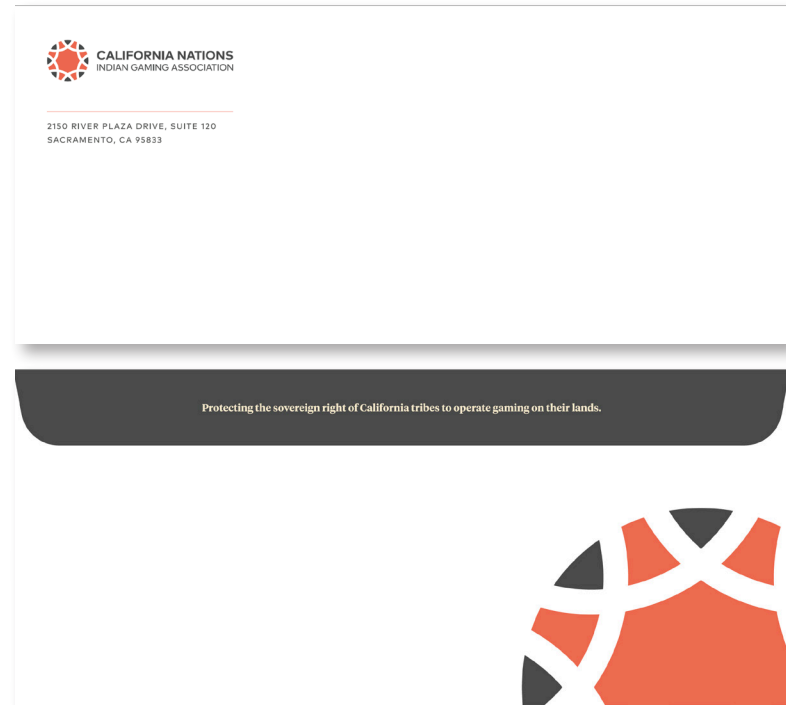

Much of CNIGA's work is done on the ground and in-person, and it is important to support those efforts with in-brand print collateral that is effective and memorable. Using the results of the EIS report, we wrote, designed, and printed a branded brochure to provide a visually pleasing leave-behind of key findings. In addition, we designed and printed business cards, letterhead and envelopes to ensure all print materials maintain a consistent look and feel.
